

# Summary of Benefits and Coverage: Synthetic Plan Comparison

## Northstar Health Plan - dataset-aligned plan reference

|                                                   |
|---------------------------------------------------|
| DOCUMENT_SET_ID: NORTHSTAR_SYNTHETIC_PLAN_LIBRARY |
| SCHEMA_VERSION: 1.0                               |
| SOURCE_FILES: plans.csv   claims.csv              |
| PLAN_IDS: P101   P102   P103                      |
| PLAN_NAMES: Gold PPO   Silver HMO   Bronze HMO    |
| DATA_CLASSIFICATION: SYNTHETIC TRAINING ONLY      |

**IMPORTANT: Values below are reproduced from the supplied CSV files. The metal-tier labels are synthetic; do not infer real-world ordering or benefits that are not explicitly present in the data.**

## Plan comparison

| Plan ID | Plan name  | Monthly premium | Annual premium | Annual deductible | Cost-share rate | Coverage type | Network tier |
|---------|------------|-----------------|----------------|-------------------|-----------------|---------------|--------------|
| P101    | Gold PPO   | \$500           | \$6,000        | \$2,000           | 10%             | PPO           | Gold         |
| P102    | Silver HMO | \$300           | \$3,600        | \$1,500           | 20%             | HMO           | Silver       |
| P103    | Bronze HMO | \$150           | \$1,800        | \$1,000           | 30%             | HMO           | Bronze       |

## How to read these fields

| Field                        | Dataset-aligned meaning                                                                                                                                 |
|------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| Monthly premium              | The monthly amount listed for the plan. Annual premium shown above is monthly premium multiplied by 12.                                                 |
| Annual deductible            | The annual deductible value supplied for the plan. The dataset does not define separate individual/family or in-/out-of-network deductibles.            |
| Copay percentage             | Stored in the source as copay_pct. This document treats it as the plan's stated member cost-share percentage without inventing service-specific copays. |
| Coverage type / network tier | The categorical values supplied in plans.csv. Referral, pharmacy, out-of-network, and authorization rules are not provided.                             |

## Claim activity represented in the supplied data

| Plan              | Approved | Denied | Pending | Total |
|-------------------|----------|--------|---------|-------|
| P101 - Gold PPO   | 1        | 0      | 1       | 2     |
| P102 - Silver HMO | 1        | 1      | 0       | 2     |
| P103 - Bronze HMO | 0        | 0      | 1       | 1     |

Claim statuses are historical synthetic records, not proof that a procedure is always covered or excluded.

# Gold PPO (P101)

|                                                   |
|---------------------------------------------------|
| DOCUMENT_SET_ID: NORTHSTAR_SYNTHETIC_PLAN_LIBRARY |
| SCHEMA_VERSION: 1.0                               |
| SOURCE_FILES: plans.csv   claims.csv              |
| PLAN_IDS: P101   P102   P103                      |
| PLAN_NAMES: Gold PPO   Silver HMO   Bronze HMO    |
| DATA_CLASSIFICATION: SYNTHETIC TRAINING ONLY      |

## Dataset-defined plan structure

| Attribute              | Value   | Interpretation boundary                                          |
|------------------------|---------|------------------------------------------------------------------|
| Monthly premium        | \$500   | Exact value from plans.csv.                                      |
| Annual premium         | \$6,000 | Calculated as monthly premium x 12.                              |
| Annual deductible      | \$2,000 | Exact value from plans.csv; no family or network split supplied. |
| Member cost-share rate | 10%     | Based on copay_pct; no service-specific schedule supplied.       |
| Coverage type          | PPO     | Exact categorical value from plans.csv.                          |
| Network tier           | Gold    | Exact categorical value from plans.csv.                          |

## Synthetic claims linked to this plan

| Claim ID | Member ID | Procedure | Claim amount | Status   | Date filed |
|----------|-----------|-----------|--------------|----------|------------|
| C1001    | M1001     | X-ray     | \$250        | Pending  | 2023-04-01 |
| C1002    | M1001     | Surgery   | \$1,200      | Approved | 2023-03-15 |

These records show only the supplied procedure, amount, status, and filing date. No denial reason, allowed amount, payment amount, or deductible accumulation is present in claims.csv.

## Information not defined by the supplied schema

- Out-of-pocket maximums and family accumulators
- Service-specific copays, coinsurance, exclusions, and limits
- Provider network rules, referral requirements, and prior authorization rules
- Prescription drug tiers, pharmacy rules, and formulary coverage
- Claim allowed amount, paid amount, denial reason, and appeal outcome

**This page intentionally avoids inventing benefits. It is a schema-aligned synthetic reference for document extraction and RAG testing.**

# Silver HMO (P102)

|                                                   |
|---------------------------------------------------|
| DOCUMENT_SET_ID: NORTHSTAR_SYNTHETIC_PLAN_LIBRARY |
| SCHEMA_VERSION: 1.0                               |
| SOURCE_FILES: plans.csv   claims.csv              |
| PLAN_IDS: P101   P102   P103                      |
| PLAN_NAMES: Gold PPO   Silver HMO   Bronze HMO    |
| DATA_CLASSIFICATION: SYNTHETIC TRAINING ONLY      |

## Dataset-defined plan structure

| Attribute              | Value   | Interpretation boundary                                          |
|------------------------|---------|------------------------------------------------------------------|
| Monthly premium        | \$300   | Exact value from plans.csv.                                      |
| Annual premium         | \$3,600 | Calculated as monthly premium x 12.                              |
| Annual deductible      | \$1,500 | Exact value from plans.csv; no family or network split supplied. |
| Member cost-share rate | 20%     | Based on copay_pct; no service-specific schedule supplied.       |
| Coverage type          | HMO     | Exact categorical value from plans.csv.                          |
| Network tier           | Silver  | Exact categorical value from plans.csv.                          |

## Synthetic claims linked to this plan

| Claim ID | Member ID | Procedure | Claim amount | Status   | Date filed |
|----------|-----------|-----------|--------------|----------|------------|
| C1003    | M1002     | X-ray     | \$150        | Denied   | 2023-04-05 |
| C1004    | M1002     | Surgery   | \$900        | Approved | 2023-03-20 |

These records show only the supplied procedure, amount, status, and filing date. No denial reason, allowed amount, payment amount, or deductible accumulation is present in claims.csv.

## Information not defined by the supplied schema

- Out-of-pocket maximums and family accumulators
- Service-specific copays, coinsurance, exclusions, and limits
- Provider network rules, referral requirements, and prior authorization rules
- Prescription drug tiers, pharmacy rules, and formulary coverage
- Claim allowed amount, paid amount, denial reason, and appeal outcome

**This page intentionally avoids inventing benefits. It is a schema-aligned synthetic reference for document extraction and RAG testing.**

# Bronze HMO (P103)

|                                                   |
|---------------------------------------------------|
| DOCUMENT_SET_ID: NORTHSTAR_SYNTHETIC_PLAN_LIBRARY |
| SCHEMA_VERSION: 1.0                               |
| SOURCE_FILES: plans.csv   claims.csv              |
| PLAN_IDS: P101   P102   P103                      |
| PLAN_NAMES: Gold PPO   Silver HMO   Bronze HMO    |
| DATA_CLASSIFICATION: SYNTHETIC TRAINING ONLY      |

## Dataset-defined plan structure

| Attribute              | Value   | Interpretation boundary                                          |
|------------------------|---------|------------------------------------------------------------------|
| Monthly premium        | \$150   | Exact value from plans.csv.                                      |
| Annual premium         | \$1,800 | Calculated as monthly premium x 12.                              |
| Annual deductible      | \$1,000 | Exact value from plans.csv; no family or network split supplied. |
| Member cost-share rate | 30%     | Based on copay_pct; no service-specific schedule supplied.       |
| Coverage type          | HMO     | Exact categorical value from plans.csv.                          |
| Network tier           | Bronze  | Exact categorical value from plans.csv.                          |

## Synthetic claims linked to this plan

| Claim ID | Member ID | Procedure | Claim amount | Status  | Date filed |
|----------|-----------|-----------|--------------|---------|------------|
| C1005    | M1003     | X-ray     | \$50         | Pending | 2023-04-10 |

These records show only the supplied procedure, amount, status, and filing date. No denial reason, allowed amount, payment amount, or deductible accumulation is present in claims.csv.

## Information not defined by the supplied schema

- Out-of-pocket maximums and family accumulators
- Service-specific copays, coinsurance, exclusions, and limits
- Provider network rules, referral requirements, and prior authorization rules
- Prescription drug tiers, pharmacy rules, and formulary coverage
- Claim allowed amount, paid amount, denial reason, and appeal outcome
